

Regulation JG-R1: STUDENT DISCIPLINE

Status: DRAFT

Original Adopted Date: 12/16/1999 | **Last Revised Date:** 11/16/2023

23D UPDATE EXPLANATION

MSBA has modified the alcohol/drug section of this policy for clarity and to address medical marijuana and generative artificial intelligence (AI). Many districts have contacted MSBA with questions about AI policies. MSBA is developing responsible, research-based policies to address AI in schools, which will take some time. Given the demand, MSBA has decided to issue policy changes addressing AI as they become ready rather than wait to issue them all as a set. MSBA has begun by revising this regulation to remove any doubt that unauthorized use of AI constitutes academic dishonesty.

We are including the following provisional definitions to help districts interpret the changes to this regulation. These definitions have not been finalized but are provided to enhance the district's understanding of this topic:

Generative AI – Any software or hardware whose primary purpose is to accept input, process the input through one or more algorithms, and use the result to generate new output that resembles human-made intellectual or creative work. Examples of generative AI include large language models (chatbots) such as ChatGPT.

Unauthorized Use of Generative AI – Any use that has not been specifically authorized for an assignment by the teacher giving the assignment. Even when AI use is authorized, exceeding the authorized use of AI may be considered unauthorized use. Some tools capable of generative AI may nevertheless be used without specific authorization as long as no Generative AI functions are used. For example, a calculator may have one or more generative AI functions, but the calculator can still be used for typical mathematical calculation, and a laptop may be used to appropriately browse the web, but not to browse websites that interface with generative AI. In case of any doubt, students should seek clarification or specific authorization from the teacher who gave the relevant assignment.

EDITOR'S NOTE: This draft includes changes requested by the district, adding out-of-school suspension to the first offenses under "Sexting and/or Possession of Sexually Explicit, Vulgar or Violent Material" and "Tobacco."

The Student Code of Conduct is designed to foster student responsibility, respect for others, and to provide for the orderly operation of district schools. No code can be expected to list each and every offense that may result in disciplinary action; however, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, any aggravated circumstance of any offense, or any action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent and/or board of education. In extraordinary circumstances where the minimum consequence is judged by the superintendent or designee to be manifestly unfair or not in the interest of the district, the superintendent or designee may reduce the consequences listed in this policy, as allowed by law. This code includes, but is not necessarily limited to, acts of students on district property, including playgrounds, parking lots and district transportation, or at a district activity, whether on or off district property. The district may also discipline students for off-campus conduct that negatively impacts the educational environment, to the extent allowed by law.

Reporting to Law Enforcement

It is the district's policy of the Platte Co. R-3 School District to report all crimes occurring on district property to law enforcement, including, but not limited to, the crimes the district is required to report in accordance with law. A list of crimes the district is required to report is included in policy JGF.

The principal shall also notify the appropriate law enforcement agency and superintendent if a student is discovered to possess a controlled substance or weapon in violation of the district's policy.

In addition, the superintendent shall notify the appropriate division of the juvenile or family court upon suspension for more than ten days or expulsion of any student who the district is aware is under the jurisdiction of the court.

Documentation in Student's Discipline Record

The principal, designee or other administrators or school staff will maintain all discipline records as deemed necessary for the orderly operation of the schools and in accordance with law and policy JGF.

Conditions of Suspension, Expulsion and Other Disciplinary Consequences

All students who are suspended or expelled, regardless of the reason, are prohibited from participating in or attending any district-sponsored activity, or being on or near district property or the location of any district activity for any reason, unless permission is granted by the superintendent or designee. When appropriate, the district may prohibit students from participating in activities or restrict a student's access to district property as a disciplinary consequence even if a student is not suspended or expelled from school. Likewise, a student may become ineligible for or be required to forfeit any honors and awards as a disciplinary consequence.

In accordance with law, any student who is suspended for any offenses listed in § 160.261, RSMo., or any act of violence or drug-related activity defined by policy JGF as a serious violation of school discipline, shall not be allowed to be within 1,000 feet of any district property or any activity of the district, regardless of whether the activity takes place on district property, unless one of the following conditions exist:

1. The student is under the direct supervision of the student's parent, legal guardian, custodian or another adult designated in advance, in writing, to the student's principal by the student's parent, legal guardian or custodian, and the superintendent or designee has authorized the student to be on district property.
2. The student is enrolled in and attending an alternative school that is located within 1,000 feet of a public school in the district.
3. The student resides within 1,000 feet of a public school in the district and is on the property of the student's residence.

Students who violate the prohibitions in this section may be suspended or expelled in accordance with the offense, "Failure to Meet Conditions of Suspension, Expulsion or Other Disciplinary Consequences," listed below.

Pursuant to law, no student will be confined in an unattended locked space except in an emergency situation while awaiting the arrival of law enforcement personnel.

Impact on Grades

As with any absence, absences due to an out-of-school suspension may result in the student earning a lower grade in accordance with the district's policy on absences.

Prohibited Conduct

The following are descriptions of prohibited conduct and potential consequences for violations. Building-level administrators are authorized to more narrowly tailor potential consequences as appropriate for the age level of students in the building within the ranges established in this regulation. In addition to the consequences specified here, school officials will notify law enforcement and document violations in the student's discipline file pursuant to law and board policy.
